- Single Unit with portable design for easy, convenient positioning and saving storage space much.
- The basic equipment in most wheel shops.

Universal railroad axle journal roller bearing push puller

Now, we are available to provide the basic tool in the most wheel shops for dismantling and installing the axle journal roller bearings. With this proper equipment and know-how, you can save the maximum of time and effort on maintenance for sure.

From class B through GG, each unit service a full line of bearings with rotating end caps. Simply remove the end caps, slip the pulling shoe between the bearings and the wheel, start the pump, the bearing being removed within seconds under the pulling force of 100 Ton easily.

The pulling shoe and installing tube ensure the most convenient and fast installation. 100-ton hydraulic cylinder is working under 10,000 psi always.
