

PRECISION LIFTING SOLUTIONS

HYDROLUTION®

INTEGRATED HYDRAULIC SOLUTIONS. ASIA FORCE

Designed to lift or lower objects in a controlled manner, the HLW range will give a safe, smooth, secure hold when lifting or lowering heavy equipment.

This tool will lift an object in a stable movement from an access gap of only 9.5mm.

HLW18T

Actuated by an external hydraulic hand-pump

HLW18TC

Actuated by an integral hydraulic hand-pump, so no hoses or external pumps are required
